

Interiors and Materials

The interior of a Ferrari represents an opportunity for tailor-made options, which is enhanced by the Ferrari hand-crafted production process and by the long experience in special finishes.

The combinations available for interiors are shown on the following pages.

TAILOR-MADE COLOURS FOR THE INTERIOR

COD. MODIS: STW1, DSH1, ROLL

The interior of each Ferrari is defined according to a colour configuration characterised by the consistency of the style and by maximum functionality. This characterisation includes the division of the cockpit into well differentiated zones from the colour point of view:

- in black the dashboard and the steering wheel;
- in the colour chosen, the central part of the interior (seats, door panels, pillars, central tunnel).

ELECTRICALLY OPERATED “GT” SEATS

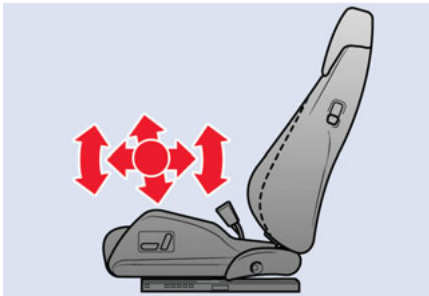

COD. MODIS: ELEC

These seats, unlike the standard ones with manual adjustment, are equipped with two controls on the outer side of the seat which allow the user to:

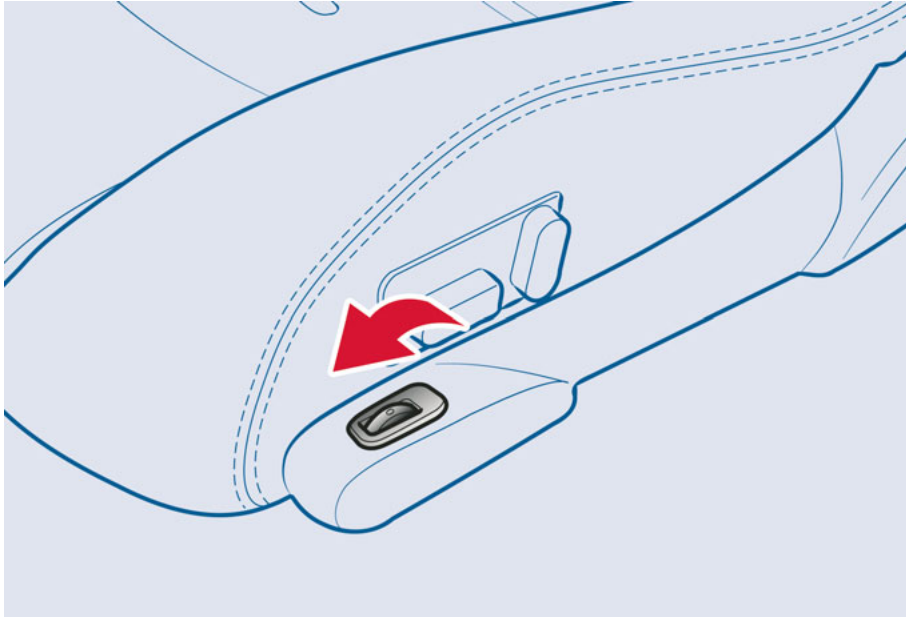

- slide the seat, tilt and adjust the seat base height;
- adjust the seat back inclination and the arching of the lumbar area (side adjustment is manual).

Available also with “Daytona” perforated leather upholstery and with piping in different colours.

Available for coupe and spider version

Interiors and Materials

HEATED SEATS

COD. MODIS: HEAT

The seat backrest and base heating functions are only available on vehicles with electrical seats.

The system is activated by means of a 3-setting dial selector, located on the seat's outer shell, which allows the user to adjust the heating level.

For instructions for use, please see the Owner's Manual supplied with the vehicle.

Available from the second half of 2005.

Available for coupe and spider version

Interiors and Materials

LEATHER PIPING FOR
"GRANTURISMO" SEATS

COD. MODIS: PIP1

Leather piping positioned on the outer edge of the seat.
Available in any colour in the range for interiors.

Available for coupe and spider version

Interiors and Materials

"DAYTONA" STYLE TRIM FOR
"GRANTURISMO" SEATS

COD. MODIS: DAY1

The "Granturismo" seats are available with "Daytona" style upholstery, typical of the Ferrari Berlinettas in the past. This seat is characterized by the drilled trims stitched on the seat base and seat back and by a single, central, longitudinal trim.

The "Daytona" style can be combined with all other variants for the GT seat (electrical adjustments and lining strip).

Available for coupe and spider version

LEATHER UPHOLSTERY FOR REAR BENCH WALL AND UNDER DOOR MOULDING

COD. MODIS: SHF2, SHFC

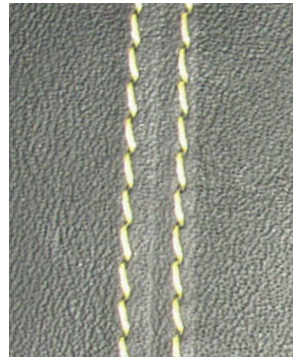

As an option for the vehicle interiors, the vertical wall of the rear bench and on the under door moulding which are also equipped with protective aluminium trims can be upholstered in leather (SHF2) .

The leather upholstery is in the same colour as the vehicle interiors. For the vehicles equipped with the carbon-fibre for the lower cabin zone (CILZ) it is available just the rear bench upholstery in leather (SHFC).

Available for coupe and spider version

STC1

STC2

FINISHING DETAILS

COD. MODIS: STC1, STC2

Stitching in any colour at choice, rather than in a colour matching the leather interior.

A range of 14 different colours selected by Ferrari is available for stitching (STC1). A part from being coloured (from a 14-shade range), the stitching can also be customised using a thicker thread, sewn with following a specific pitch as shown in the picture (STC2).

Available for coupe and spider version

PERSONAL DEDICATION PLATE

COD. MODIS: DEDI

The connection between Ferrari and its customers can be emphasized by a small silver plate, with a personal engraving, applied to the central dashboard trim. This plate replaces the one showing the vehicle model name. The dedication to be printed on the plate was to be transmitted to Ferrari using the special form available at each Ferrari dealership.

For homologation reasons, the size of the dedication plate and its position in the vehicle are predefined. Also available for installation on existing cars.

Available for coupe and spider version

Interiors and Materials

CARBON-FIBRE FOR DRIVING ZONE

COD. MODIS: CIDZ

The carbon-fibre components are installed in the driver area:

- upper section of the rim and central mount of steering wheel;
- F1 gearbox control levers or gearshift knob for mechanical gearbox;
- instrument panel.

Also available for retrofitting on existing vehicles.

Available for coupe and spider version

CARBON-FIBRE FOR LOWER CABIN ZONE

COD. MODIS: CILZ

The carbon-fibre components of this outfitting are designed for the upper part of the central console and the vehicle access area, outside and inside the door weather strip.

The external part is fitted with an aluminium trimming bearing the Ferrari logo, while the internal one has a kick plate in anodised aluminium to protect against heel marks.

Also available for retrofitting on existing vehicles.

Available for coupe and spider version
