## Limited Warranty

FERRARI North America a division of Fiat Auto USA Inc. (herein referred to as FERRARI) warrants to the retail purchaser (except as hereinafter provided) any part of each new FERRARI Car sold by the Dealer to the retail purchaser to be free under normal use and service from defects in material and workmanship for a period of twenty-four (24) months from the date of delivery to the first retail purchaser.

ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS ARE LIMITED TO THE DURATION OF THE APPLICABLE EXPRESS WARRANTY CONTAINED HEREIN.

Some states do not allow limitation on how long an implied warranty lasts, so the above limitation may not apply to you.

FERRARI's obligation under the above warranty excludes:

- Fading and deterioration of paint, chrome and trims due to normal wear or abnormal exposure to the elements or abnormal climatic conditions;
- Normal maintenance services, including but not limited to;
- Lubrication and filters;
- Replacement of brake pad linings;
- Replacement of clutch disc and pressure plates;
- Replacement or adjustment of spark plugs;
- Replacement of windshield wiper blades;
- Replacement of light bulbs and fuses;
- Wheel alignment, balancing and adjustment;
- Removal or filtering of dirt or other type of deposit in the fuel system;

- Tyres which are warranted separately by the tire manufacturer. The applicable tire warranty booklet for your vehicle has been placed in your car.
- Glass breakage, unless it occurs as a result of defects in material or workmanship.
- Damage by fuel contamination or the use of fuel, oil or lubricants other than those specifications as indicated in your Owner's Manual.
- Damage to the interior (soft trim) due to normal wear and tear, misuse, or negligence.

FERRARI's obligation under the above warranty is limited to replacement or repair of, at the option of FERRARI, at the Dealer's location, such parts as shall be actually defective and adjustments necessitated by such replacement or repair.

FERRARI shall have no obligation under the above warranty for any replacement or repair which is necessitated by:

- Misuse, negligence, overloading, any type of modification, accidents, racing and/or competitions;
- Use of parts other than genuine FERRARI parts;
- Unauthorized alteration or repair of the car by other than an authorized FERRARI Dealer;
- Repairs which are required as a result of improper maintenance. (Correct maintenance procedures are referenced in your Owner's Manual and Maintenance Records Booklet).

**THIS WARRANTY IS GIVEN SOLELY FOR THE BENEFIT OF THE RETAIL PURCHASER, AND NONE OTHER AND IS IN LIEU OF, AND SUPERSEDES, ALL OTHER EXPRESS WARRANTIES AND REPRESENTATIONS OF FERRARI, THE MANUFACTURER, THE DISTRIBUTOR, OR THE SELLING DEALER (EXCEPT FOR THE EMISSION CONTROL SYSTEM WARRANT-**

**TY). NO ONE IS AUTHORIZED TO VARY OR CHANGE THE TERMS OR CONDITIONS OF THIS WARRANTY.**

This warranty does not apply to a motor vehicle on which any body manufactured by a party other than FERRARI Spa is mounted.

THERE SHALL BE NO LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES UNDER THE ABOVE WARRANTY including but not limited to, car rental charges, towing costs, hotel bills, loss of time or vehicle use, or call charges.

Some states do not allow the exclusion or limitations of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This warranty give you specific legal rights and you may have other rights which vary from state to state.

# Ferrari Emission Control System Warranty

For California models see the enclosed "CALIFORNIA EMISSION CONTROL SYSTEM WARRANTY STATEMENT"

FERRARI Spa warrants to the ultimate purchaser and each subsequent purchaser that his vehicle (or engine) is designed, built and equipped so as to conform at the time of sale with all U.S. emission standards applicable at the time of manufacture and that it is free from defects in materials and workmanship which would cause it not to meet these standards within the period of five years or 50,000 miles whichever occurs first.

Failures other than those resulting from defects in material or workmanship, which arise solely as a result of owner abuse and/or lack of proper maintenance, are not covered by the warranty.

FERRARI's responsibility with respect to claims is limited to making required repairs, and no claim of breach or warranty shall constitute a cause for cancellation of the contract of sale of this vehicle

.Repairs qualifying under this warranty will be performed by the selling dealer within a reasonable time following delivery of the vehicle to the dealer's place of business during regular business hours, or by any authorized FERRARI dealer, if you are in transit or have changed your place of residence.

## This Warranty Does Not Cover

FERRARI's obligation under the above warranty excludes:

- The replacement of maintenance items such as spark plugs, filters, hoses, belts, wires and coolant made in connection with required emission control maintenance services. (Hoses, that are part of the Emission Control System are not maintenance items);
- Loss of time, inconvenience, loss of use of the vehicle or other incidental or consequential damages;
- Any vehicle on which the odometer mileage has been altered and the vehicle's actual mileage cannot be readily determined.
- Parts with malfunctions caused by misuse, improper

adjustments, modification, alteration, tampering, disconnection of system parts, and improper or inadequate maintenance.

- Damage resulting from accident, acts of nature, or other events beyond the control of Ferrari.
- Damage by fuel contamination or the use of fuel, oil or lubricants other than those specifications as indicated in your Owner's Manual.

### Emission Control System Maintenance

The Federal Clean Air Act requires the vehicle manufacturer to furnish, with each new vehicle, starting from 1973 model year production, written instructions for the main-

tenance and use of the vehicle by the ultimate purchaser to ensure the proper functioning of emission control devices and systems installed in the vehicle by FERRARI.

### Normal Vehicle Use

The owner's maintenance instructions contained in this booklet are based on the assumption that the vehicle will be used as designed:

- To carry passengers and cargo within the limitations indicated on the vehicle Tire Label affixed inside the car;
- On reasonable road surfaces within legal operating limits;

- On a daily basis, as a general rule, for at least several miles.

#### **Maintenance Source and Evidence**

#### **OWNER OBLIGATIONS**

The required owner maintenance operations printed on the Free Service Coupon will be performed free-of-charge by an authorized FERRARI dealer.

The operation, maintenance and care of your Ferrari

according to the instructions and requirements listed in your Owner's Manual and Warranty and Service Book is your responsibility. Items such as, but not limited to, cleaning, polishing, lubrication, tune-ups, replacement of worn wiper blades, brake pads, and clutch assembly must be completed at the recommended intervals or as required. It is also your responsibility to keep a copy of all repair orders and receipts as well as a record of all

maintenance services performed, including engine and oil filter changes. Records of these services may be requested for substantiation of proper maintenance, and should be transferred to each subsequent owner. For your convenience, each one of the maintenance coupons contained in this booklet has a specific space to carry the signature of the person performing the maintenance when maintenance service has been performed.

---

## **Recommendations for Required Maintenance Service Replacement Parts**

The emission control systems on your new FERRARI were designed, built and tested using authorized FERRARI parts and the vehicle is certified as being in conformity with federal regulations implementing the Clean Air Act.

Accordingly, it is recommended that any replacement parts used for required maintenance services or for the repair of emission control system be new, authorized FERRARI parts. Use of replacement parts which are not of equivalent quality may impair the effectiveness of such systems.

Listed below are the components affecting emission performance of your FERRARI:

Engine cooling system	Fuel Tanks
Fuel injection system	Fuel filler
Air cleaner	Evaporative
Air injection system (pulse air)	Emission Control System
Ignition system	Crankcase Emission Control System
Spark plugs and wires	Ins. Exhaust Manifolds
Valve train	Catalytic Converters and Oxygen sensors.

The Literature Kit of your car includes an Instruction Book which contains more details regarding the Emission Control System maintenance.

**Note:** All vehicles equipped with catalytic converters require the use of unleaded gasoline to avoid damage.

## General Warranty Information

### Warranty Service

During the warranty period, if you are travelling or if you change your residence to a distant location, warranty service as provided by this policy will be performed by any Authorized FERRARI Dealer in the U.S.A. There will be no charge for the parts or for the labor to replace the parts, provided you bring your vehicle to him. As the service during the warranty period may have to be performed by an Authorized FERRARI Dealer other than the selling dealer, this booklet must be carried with you. This booklet will be proof that your car is within the warranty period; otherwise, the servicing dealer may charge you for the warranty work.

### Customer Assistance

FERRARI North America, and authorized FERRARI

dealers are extremely interested in your satisfaction with, and loyalty to our products. Therefore, should you encounter a problem in connection with your vehicle or its warranty, we suggest that you follow the procedures in the order as outlined herein:

- 1) Contact your Authorized FERRARI dealer principal (or the designated management) and discuss the particular condition encountered. This should result in the necessary corrective action. If it does not, proceed with step 2.
- 2) Contact the nearest FERRARI North America Office (address and telephone number listed on next page).

It will greatly assist if you have the following information available at the time of your contacting any one of the above departments:

Model and year of vehicle:

Chassis number of vehicle (see tag. on top of steering column cover):

Date of Purchase:

Name of Selling Dealer:

Present Mileage of Vehicle:

Nature of condition encountered (please provide as much information as possible):

### Note

It is the direct responsibility of your Authorized FERRARI Dealer to take care of any problems or answer any questions which you may encounter with your FERRARI. However, FERRARI North American, is ready and willing to intercede on your behalf, should the occasion arise.

## FERRARI Emission Control System Performance Warranty

Some states and jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper maintenance of your car.

If an EPA-approved I/M program is in force in your area, you also may be eligible for performance warranty coverage under the following conditions:

- 1) The vehicle must be maintained and operated in accordance with the instructions for proper maintenance

and use set forth in the Owner's Manual, the maintenance schedule and the Owner's Warranty and Service Book supplied with your new car.

- 2) The vehicle fails to conform for a period of 5 years or 50,000 miles, whichever occurs first, to the applicable emission standards of the U.S. Environmental Protection Agency, as judged by an EPA-approved I/M test; and

- 3) The failure to conform result or will result in the owner of the vehicle having to bear a penalty or other sanctions (including the denial of the right to use the vehicle) under local, state or federal law.

If all of the foregoing conditions are met, FERRARI warrants that your dealer will replace, repair or adjust to FERRARI specifications, at no charge to you, any of the components listed below, or parts thereof which may be

necessary to cause your car not to conform to the applicable emission standards. Parts "Certified to EPA Standards" shall be covered by this performance warranty. This performance warranty begins on the date the car is first put into use and continues for a period of 5 years or

50,000 miles whichever occurs first, except that if the vehicle has been in operation for over 24 months or 24,000 miles, the repairs or replacement shall be limited to only those components (not designated with\*) which were installed on or in a vehicle for the sole or primary

purpose of reducing vehicle emissions and not in general use prior to model year 1968.

**Parts listed below and designated with a " \* " are covered under the Performance warranty for 24 months or 24,000 miles, whichever occurs first.**

## List of warranted parts

### I - FUEL METERING SYSTEM

#### a) Fuel injection System:

- 1) Mixture control unit (\*)
- 2) Warm-up regulator (\*)
- 3) Auxiliary-air valve (\*)
- 4) Injection valves (\*)
- 5) Cold-start injector (\*)
- 6) Temperature-time switch (\*)
- 7) Modulating valve and damper
- 8) Injection Electronic Control Unit (ECU)
- 9) Oxygen sensor
- 10) Thermal switches
- 11) Throttle microswitch

#### b) Cold start Enrichment System

- 1) see items a) 2), 3), 5), 6), 8), 10).

### II - AIR INDUCTION SYSTEM

#### a) Intake manifold

- 1) Intake manifold
- 2) Throttle valve housing

### III - IGNITION SYSTEM

- a) Ignition Distributor Cap and Brushes (\*)
- b) Advance Electronic Control Unit
- c) Electromagnetic pick-ups
- d) Ignition Coils
- e) Spark plugs (\*)
- f) Ignition wires (\*)

### IV - EVAPORATIVE CONTROL SYSTEM

- a) Vapour Storage Canister
- b) Vapour-liquid Separator
- c) Fuel Tanks and Filler Cap
- d) Two-way Vent Valve

### V - CRANKCASE EMISSION CONTROL SYSTEM

- a) Flame arrestor
- b) Separator
- c) Oil filler Cap

### VI - AIR INJECTION SYSTEM

- a) Check valves
- b) Cut-off valve

- c) Thermal switches (same as item I-a) 10) and electrovalve
- d) Air distribution pipes and connections

### VII - CATALYST SYSTEM

- a) Catalytic Converter & Constricted Fuel Filler Neck
- b) Exhaust manifolds
- c) Exhaust Pipe from the Exhaust Manifold to the Catalyst

### VIII - MISCELLANEOUS ITEMS USED IN ABOVE SYSTEMS

- a) Hoses, clamps, fitting, tubing, sealing gaskets or devices and mounting hardware (\*)
- b) Vacuum, Temperature, and Time Sensitive Valve and Switches;
  - 1) see items I-a), 6), 10)
- c) Electronic Controls:
  - 1) see item I-a), 8)
  - 2) see item III-b)
  - 3) catalyst temperature control unit

---

## Use of Certified Parts

MAINTENANCE, REPLACEMENT, OR REPAIR OF THE EMISSION CONTROL DEVICES AND SYSTEMS, IF NOT COVERED UNDER A FERRARI WARRANTY MAY BE PERFORMED BY ANY AUTOMOTIVE REPAIR ESTABLISHMENT OR INDIVIDUAL USING ANY "EPA

CERTIFIED PART". A PERFORMANCE WARRANTY CLAIM WILL NOT BE DENIED ON THE BASIS OF THE USE OF A PROPERLY INSTALLED "EPA CERTIFIED PART" IN THE MAINTENANCE OR REPAIR OR THE VEHICLE. FOR EPA CERTIFIED PARTS HAVING A

MAINTENANCE INTERVAL DIFFERENT FROM THAT SPECIFIED IN THE WRITTEN INSTRUCTIONS FOR PROPER MAINTENANCE AND USE THE TIME/MILEAGE INTERVAL SHALL BE THE SERVICE INTERVAL FOR WHICH THE PARTS WAS CERTIFIED.

---

## Claims Under the Emission Control System Performance Warranty

A claim under the performance warranty may be raised immediately upon the failure of an EPA-approved test if, as a result of the failure, the owner is required to take action of any kind in order to avoid imposition of penalty or sanction.

A performance warranty claim may be submitted by bringing the vehicle to any U.S. repair facility authorized by FERRARI.

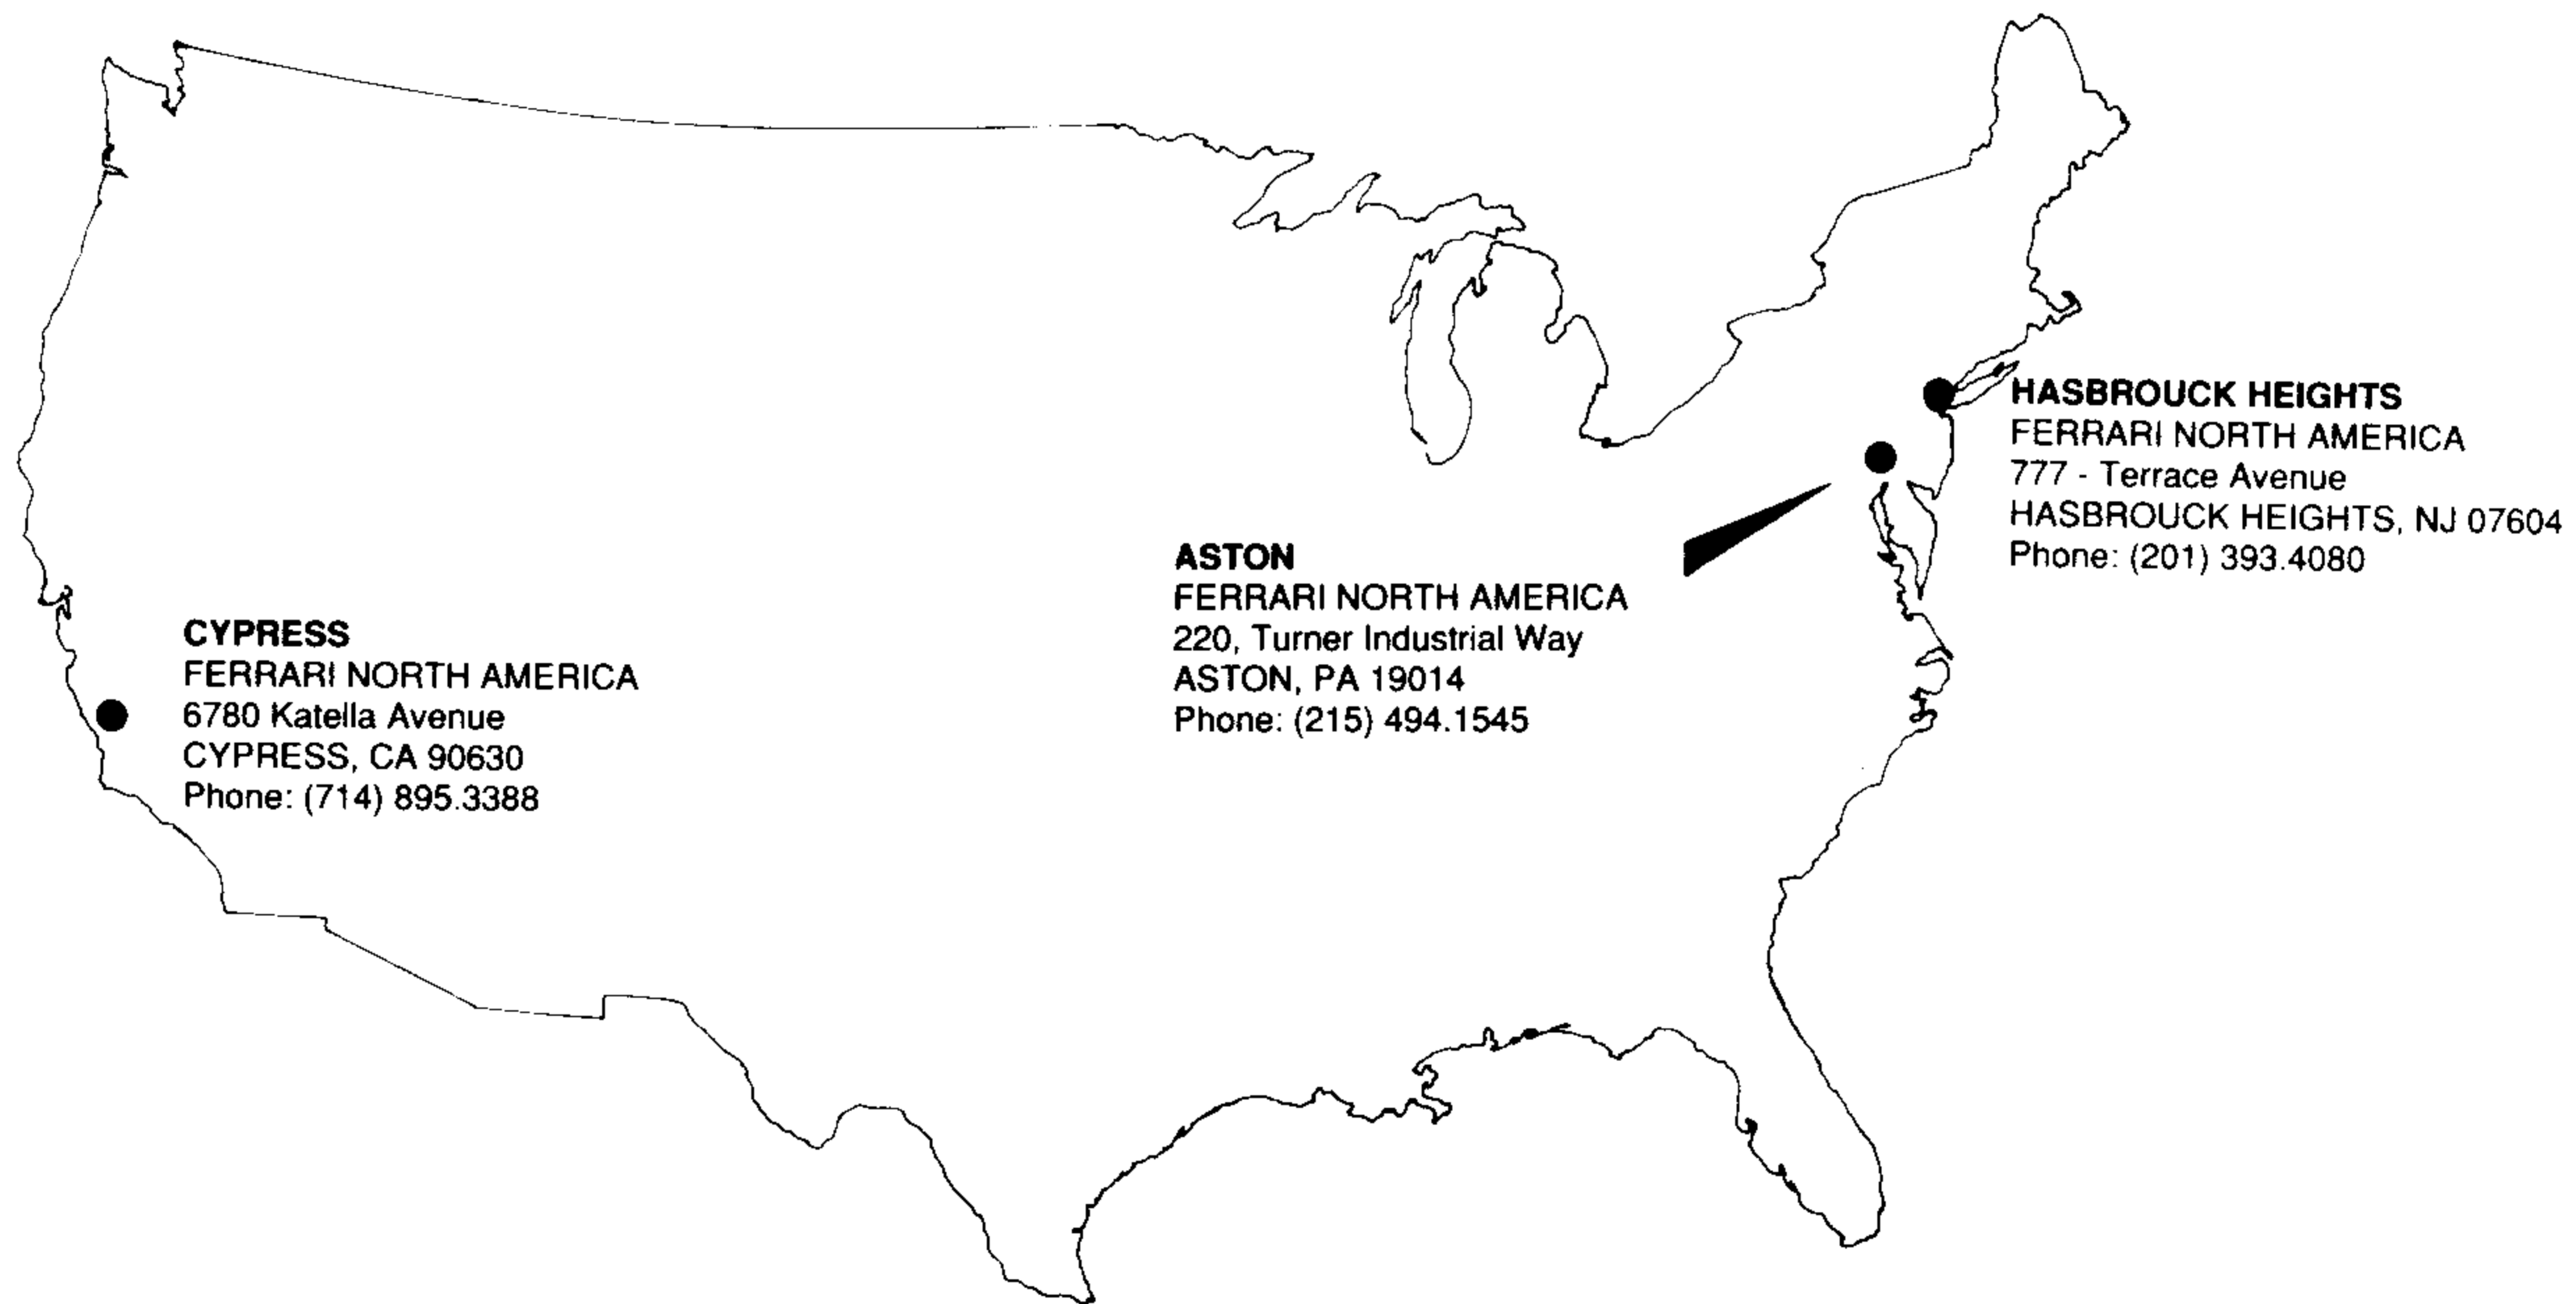

A final decision as to coverage will be made no later than 30 days after the vehicle is initially presented for repair or within the time period during which the owner is required by local, State or Federal law to have the vehicle repaired

without incurring further penalties or sanctions (whichever is shorter), unless a delay is requested by the owner, or is caused by an event not attributable to the vehicle manufacturer or the warranty repair facility.

If FERRARI plans to deny the claim, the owner will be notified in writing, and will be provided with an explanation of the basis upon which the claim is being denied. Failure to notify the owner within the specified time period, for reasons that are not attributable to the owner or to events which are not beyond the control of the vehicle manufacturer or the repair facility, shall result in the vehicle being repaired free of charge to the owner.

## Further Information and Complaints

For further assistance and information or to report violations you may contact FERRARI (see page 1 of this booklet); you may also contact the Director, Field Operations and Support Division (EN-397), Environmental Protection Agency, 401 M. Street, S.W. Washington D.C. 20460.

# Pre-Delivery Service

## Attention FERRARI Dealer:

Inspect the following items and correct as necessary: consult Manuals and Service Letters for adjustments and torque specifications. If warrantable work is performed, submit corresponding claim.

**Note:** Inspection and/or correction of the items listed in this form are considered part of the dealers' new car preparation and obligations.

## Engine

- Alternator, water pump and air conditioner belts
- Cooling level and water tank cap valve
- Oil for level and possible leaks
- Water pump, water hoses and connections
- Spark plugs, wires and connections
- Air injection system operation
- Distributor cap wires and connections, basic ignition timing at normal idle speed
- Air filter cleaning
- Idle speed
- Throttle return at idle and microswitch
- Fuel injection system operation and leaks

- On-off switches operation
- Idle CO-HC concentration from all cylinder (warm engine) with and without oxygen sensor
- Oil pressure
- Crankcase and evaporative emission control system, for proper operations and leaks
- Exhaust system losses check

## Clutch

- Clutch pedal clearance (328 GTB/GTS)
- Fluid level in reservoir (Mondial)

## Gear Box

- Oil level and possible leaks
- Speeds positioning as printed on the gear lever knob

## Brakes

- Brakes, handbrake, pipes and fluid level

## Steering

- Steering linkage, steering box, bolts and nuts tightening

## Electrical System

- Battery: connections and charge condition

- Inside lights, indicator gauges and dash lights operation
- Exhaust system over temperature warning light
- High and low beam, stop, parking, back up, side markers and license lights operation
- Headlights aimed to meet legal requirements
- Emergency lights and turn signal operation
- Ventilation system, air conditioner, heating system and defroster
- Windshield wiper and washer operation
- Horn operation
- Antitheft and buzzer
- Electric windows operation
- Seat belts warning light and buzzer

## Body

- Seat belts operations and anchor bolts
- Seats and headrests fastening and anchorage
- Internal and external rearview mirrors
- Window glass marking: AS mark must be printed on the windshield and AS1 or AS2 printed on the other windows

- Tightening of the wheel nuts and tire pressure including spare tire
- Upholstery, carpets, windows
- Exterior and interior paint is not scratched or damaged
- CAR ROAD TEST

**Before delivering the car make sure that**

- The vehicle emission control system information label is fitted in the engine compartment
- The load plate and tire pressure plate is fitted in the glove box compartment.
- The identification number on the steering column corresponds to the one on the conformity label fitted on the driver's side door pillar and to the one engraved on the chassis
- Record is kept of tire identification codes

**Check that the car is supplied with**

- Owner's manual for the North America version
- Consumer information booklet
- Sales and service organization booklet
- Warranty and Maintenance booklet complete with the necessary data

- California emission control system warranty statement (for California dealers only)

**Delivery-Owner instructed in:**

- Consumer Information and Instruction Book
- General operation of vehicle and all accessories
- Use of keys
- Instruments.
- Hood latch release
- Location of engine oil dipstick, brake and clutch fluid reservoir
- Location of tool kit
- Changing wheel - use of jack - tire pressure chart
- Fuel and oil requirements
- Explanation of servicing requirements and warranty policy

**Note**

The pre-delivery form and Scheduled maintenance contain some operations printed in red. These operations are related to the emission control systems: the effectiveness of these systems will be reduced if they are not properly performed.

I do hereby certify that the above items have been explained to me and that the P.D.I. list on the previous pages were reviewed by me. I have received a copy of the Owner's Warranty and Service Book, California emission control system warranty statement (\*), Owner's Manual, Consumer's Information pamphlet, Sales and Service Organization Booklet and tool kit.

I do agree to the terms and conditions of the Warranties contained herein and have inspected the vehicle delivered to me and it appears to be in satisfactory condition.

Owner's Signature:

Date: 2-5-89

I do hereby certify that all the items regarding the Pre-Delivery Inspection have been performed.  
Dealer or Service Manager Signature:

*[Signature]*  
Date: 4-11-89

(\* ) only for California

# Maintenance Schedule

## Scheduled Maintenance

In order to assure that you obtain the best and most economical operation of your FERRARI you must make sure that it received the proper maintenance. You, the owner have responsibility to provide regular maintenance as specified in the Scheduled Maintenance Chart and to keep records of all maintenance performed on your FERRARI.

## Free Service

(See Free Service Coupon)

As the owner of a new FERRARI you are entitled to the services listed on the Free Service Coupon "A" This service will be performed by an Authorized FERRARI Dealer without charge to you (including labor charges, and materials) Coupon "A" must be performed at 1200/1500 miles. Note that Free Service Coupon "A" is void 12 months after the retail sale and registration of the vehicle. Please be

advised that the services listed on the Free Service Coupon are extremely important to the proper functioning of your FERRARI. Failure to have the services performed may void your warranty.

## Engine Oil Filter Maintenance

The engine oil level should be checked every 500 Miles (if car is not driven frequently, perform check every three months).

The engine oil and filter of your new Ferrari must be re-placed after the first 1200/1500 miles. After this, the oil and filter should be changed every 7,500 miles (engine oil should be changed at least one per year).

For more detailed information regarding oil type and grade, refer to your Owner's Manual.

## Gear Box and differential

The oil in the gear box and differential should be changed every 15,000 miles or at least once a year.

## Brake (and clutch) fluid

The brake fluid reservoir should be checked every 7,500 miles. Fluid should be replaced every 12 months at least.

## Special Maintenance

(Refer to chart)

The maintenance operations marked with an asterisk on the chart are not required but recommended if you operate your vehicle frequently in unusual traffic condition or on dusty or sandy roads.

## Statement

The emission warranty and manufacturer recall liability are not effected in the event the inspections on the fuel injection and ignition systems are not performed by the customer.

## PREVENTING RUST

This car has been designed and built with care according to the best technology in order to safeguard a long life.

The steel tube chassis represents in itself item against corrosion or main structure, many of the steel body panels are made of zincrox one side (multilayer zinc electroplating with chromium and chromium oxide) and before the actual painting process the body has been degreased, phosphated and treated by completely dipping it into the electrophorese bath in order to achieve paint coverage on all surface.

After the painting cycle and, also later on after the building process, the car has been further treated against corrosion by spraying protective oils in all critical areas and, most of all, inside the box-type structures. For this purpose Ferrari Spa has chosen the Tuff-Kote/Dinol system which is among the best today.

## PROTECTION ANTICORROSIVE

Cette voiture a été projetée et contruite avec les meilleurs critères technologiques afin d'en assurer une bonne durée dans le temps.

Le châssis, réalisé en tubes d'acier représente, lui-même une sûreté en ce qui concerne la résistance à la corrosion structurale.

La carrosserie est réalisée avec un large emploi de tôles en acier du type Zincrox (zingage électrolytique appliqué sur un côté des tôles par couches multiples de chrome et oxyde de chrome).

Avant le vernissage définitif, la carrosserie est soumise à un traitement de dégraissage et de phosphatation, et ensuite plongée complètement dans un bain d'électrophorese de façon à ce que ce traitement puisse rejoindre les zones plus inaccessibles.

Après le cycle complexe de vernissage, et son assemblage successif, le véhicule est ultérieurement protégé contre la corrosion au moyen d'une espersion d'huiles protectives appropriées, dans tous les endroits critiques et, en particulier à l'intérieur des caissons.

Pour ce but, Ferrari SpA a choisit le système Tuff-Kote/Dinol qui est un des meilleurs disponible actuellement.

## PROTEZIONE ANTICORROSIVA

La presente vettura è stata progettata e realizzata con accorgimenti tali da assicurare un buona durata nel tempo secondo i migliori criteri tecnologici.

La carrozzeria, con telaio in tubi di acciaio che costituiscono già per sé una sicurezza nei confronti della corrosione strutturale, costruita con largo impiego di lamierati in acciaio tipo zincrox (elettrozincato multistrato con cromo e ossido di cromo) da un lato, prima della verniciatura vera e propria è stata sottoposta ad un trattamento di sgrassaggio, fosfatazione e quindi ad una prima verniciatura per immersione completa in un bagno di elettroforesi in modo da far giungere il rivestimento anche nelle zone più nascoste ed inaccessibili.

Dopo il complesso ciclo di verniciatura e, successivamente dopo il montaggio, la vettura è stata ulteriormente protetta contro l'ossidazione mediante spruzzatura di olii appropriati in tutte le zone più critiche e, in particolare, all'interno degli scatolati. A tale scopo, la Ferrari SpA ha scelto il sistema Tuff-Kote/Dinol che è tra i migliori oggi disponibili.

## KORROSIONSSCHUTZ

Dieser Wagen ist sorgfältig projektiert und gebaut nach der besten Technologie, um eine Langlebigkeit zu sichern. Das aus Stahlrohren gebaute Chassis ist schon an sich eine Sicherheit gegen Korrosion in der Konstruktion.

Mehrere Stahlbleche sind aus Zincrox hergestellt (die auf eine Seite mit Chrom und Chromoxyd mehrschichtig elektrolitischverzinkt sind).

Danach wird die Karosserie entfettet, phosphatiert und in der Elektrophorese behandelt, um eine Farbendeckung auch in den unzugänglichen Zonen zu sichern.

Nach kompletter Lachierung und darauf folgender Montage, wird der Wagen zusätzlich gegen Rost, in allen kritischen Bereichen und besonders in den Hohlräumen geschützt.

Hierfür hat FERRARI SpA das System Tuff-Kote/Dinol gewählt, das unter den Besten heute ist.

## MAINTENANCE

In order to preserve the car from corrosion and rust, it is recommended to perform periodic checks and re-treatments which are to be performed at a Ferrari Dealers following the schedule shown in the following pages.

The planned controls and re-treatments could be further done indefinitely at the intervals shown by the maintenance schedule. The corresponding information is at your disposal at a Ferrari Service.

In addition, a careful inspection and a Tuff-Kote/Dinol re-treatment are recommended after body repairs and in cases of partial or total paint respraying.

## RECOMMENDATIONS

For a long life of the car, proper care by the owner is most important. Here listed, please find some recommendations to be followed:

- 1) No area of the car should be permitted to remain moist or dirty for too long. This goes for the passenger compartment floor and the luggage boot in particular - they should always be clean and dry. The holes in the lower part of the doors ought to remain open allowing water to escape.
- 2) The underbody and other bottom parts of the carbody should be washed more frequently, at least once a week, if the car is driven on salty or very dirty roads.

Here it is imperative that the wash must be complete and thorough; a partial washing could scratch or damage the paint and possibly cause rusting.

- 3) The car should be washed with appropriate agents **DO NOT USE HOT WATER OR STEAM** on the painted surfaces and the underbody. Wash the car in lukewarm water, with a clean sponge and **NEUTRAL SOAP**. Then flush again in lukewarm water and rub the car dry.

- 4) Parts damaged by stones, scratches or damages by parking must be promptly repaired by a qualified body shop.

- 5) Do not leave the car for long periods in damp or non-ventilated areas.

## MANUTENZIONE

Per prevenire la comparsa di ossidazione nel tempo, occorre un periodico controllo e ritrattamento della vettura presso i Servizi Autorizzati Ferrari e alle scadenze indicate nelle pagine seguenti.

Il trattamento può proseguire a tempo indeterminato con le stesse scadenze indicate.

I centri Autorizzati Ferrari potranno informarvi in merito.

Un controllo generale ed un ritrattamento Tuff-Kote/Dinol sono necessari anche dopo riparazioni di carrozzeria in seguito ad incidenti o in caso di riverniciatura parziale o totale.

## RACCOMANDAZIONI

Per la buona preservazione della vettura nel tempo è di estrema importanza la cura da parte del Proprietario.

Forniamo un elenco delle principali precauzioni da seguire:

- 1) Evitare che alcune parti della vettura rimangano bagnate o piene di sporco stradale per lunghi periodi: in particolare il pavimento interno abitacolo e bagagliaio deve essere conservato pulito ed asciutto; i fori di scarico sotto alle portiere devono essere mantenuti aperti per lasciar defluire l'acqua.

- 2) Il sottoscocca e le superfici inferiori della vettura devono essere periodicamente puliti, intensificando la frequenza della pulizia (almeno 1 volta alla settimana) quando si è in presenza di strade con sale o con molto sporco. È importante che il lavaggio sia completo e a fondo: un lavaggio tale da bagnare solo il fango incrostato senza asportarlo completamente può essere dannoso.

- 3) La vettura deve essere lavata periodicamente con mezzi adeguati. Per la pulizia sia della vernice che delle superfici inferiori **NON USARE ACQUA MOLTO CALDA O VAPORE**.

È consigliabile far rammollire lo sporco e rimuoverlo inizialmente con un getto d'acqua a temperatura ambiente, quindi lavare con una spugna o con **SAPONE NEUTRO**. Alla fine risciacquare completamente ed asciugare con cura.

- 4) Le zone che presentassero fratture o scoperture causate da sassi, graffiature, danni di parcheggio, etc., devono essere immediatamente trattate da un carrozzeria qualificato.

- 5) Evitare di parcheggiare la vettura per lunghi periodi in ambienti umidi e non aerati.

## ENTRETIEN

Dans le but de prévenir l'apparition de corrosion dans le temps, il faut procéder à un contrôle périodique du véhicule selon le plan d'entretien indiqué dans les pages suivantes.

Le traitement peut se continuer à temps indéterminé avec le même intervalle des opérations indiquées par le plan d'entretien.

Les Centres autorisés Ferrari et Tuff-Kote/Dinol vous renseignerons à ce sujet.

Les entretiens doivent être effectués auprès des Centres Autorisés Ferrari ou Tuff-Kote/Dinol selon les échéances prévues, et pour chaque opération il faut compiler le coupon en 4 copies de ce carnet, relatif à ces opérations.

Les opérations relatives au coupon C sont complètement gratuites selon la validité des conditions de la garantie Ferrari.

Un contrôle général et une nouvelle application Tuff-Kote/Dinol sont aussi nécessaires après les réparations de la carrosserie à la suite d'accidents, ou dans le cas de nouvelle peinture partielle ou complète.

À cet effet il faudra utiliser les coupons R1 et R2 joints à la fin de ce carnet.

## RECCOMANDATIONS

Le soin apporté par le propriétaire du véhicule, est d'extrême importance pour sa bonne préservation dans le temps.

Nous fournissons ici une liste des précautions principales à suivre:

1) Eviter que quelques parties du véhicule restent mouillées ou sales pour de longues périodes: particulièrement le plancher de l'habitacle et du coffre à bagages doivent être conservés propre et sec; les orifices d'écoulement sous les portes doivent être toujours libres afin de permettre un passage libre de l'eau.

2) Le bas de caisse et le dessous du véhicule doivent être lavés périodiquement. Intensifier la fréquence du lavage (au mois 1 fois par semaine), si le véhicule est utilisé sur routes particulièrement sales, ou en présence de sel.

Il est très important que le lavage soit bien exécuté; un lavage incomplet et qui n'élimine pas complètement la boue posée sur les tôles, peut causer des dommages.

3) La voiture doit être lavée périodiquement avec des moyens adéquats. Pour le nettoyage soit de la peinture que des surfaces inférieures **NE PAS UTILISER DE L'EAU TRES CHAUDE OU DES JETS DE VAPEURS**. Il est conseillé au début de ramolir les impuretés, et les enlever à l'aide d'un jet d'eau à température ambiante, et ensuite laver avec une éponge propre et du **SAVON NEUTRE**.

A la fin rincer complètement et essuyer avec soin.

4) Les endroits qui présentent des fractures ou écorchures superficielles provoquées par projections de pierres, égratignures, dégâts provoqués dans les parkings, etc. doivent être immédiatement réparés par une carrosserie qualifiée.

5) Eviter de parquer la voiture pour de longues périodes dans des locaux humides et mal aérés.

## BEHANDLUNG

Um den Wagen richtig zu pflegen und die Möglichkeit einer Korrosion auszuschalten, ist es angebracht, periodisch zur Kontrolle und Nachbehandlung zu erscheinen, wie aus der Seiten des Wartungsplans ersichtlich ist.

Die Behandlungen nach diesem Wartungsplan können weiter erfolgen auf unbestimmte Zeit.

Sie können die entsprechenden Informationen in den Ferrari Vertragswerkstätten oder Tuff-Kote/Dinol Fachbetrieben erhalten.

Diese Behandlungen müssen in einem autorisierten Ferrari oder Tuff-Kote/Dinol Fachbetrieb ausgeführt werden, und für jede Behandlung muss das entsprechende Coupon aus diesem Heft in 4 Kopien ausgefüllt werden. Die Kontrollen und Nachbehandlungen nach Coupon C sind kostenlos, laut Ferrari Garantiebedingungen.

Eine allgemeine Kontrolle und Tuff-Kote/Dinol Nachbehandlung sind durchzuführen bei jeder Reparatur der Karosserie nach einem Unfall bzw. teilweiser oder kompletter Lackierung der Karosserie.

In diesen Fällen sind die Coupons R1 und R2 aus diesem Heft zu verwenden.

## EMPFEHLUNGEN

Die Pflege des Wagens ist entscheidend für seinen Zustand.

Nachstehend geben wir Ihnen einige Empfehlungen, welche Sie befolgen sollten:

1) Sie sollten dafür sorgen, dass kein Raum des Wagens während längerer Zeit nass oder voll Schmutz verbleibt. Besonders der Boden im Personenraum sowie der Kofferraum sollten immer gereinigt und getrocknet werden. Die Öffnungen am unteren Rand der Türen sollten immer offen sein, damit das Wasser abfließen kann.

2) Der Unterboden sowie die unteren Flächen der Karosserie sollten öfters gewaschen werden, jedoch mindestens einmal in der Woche, wenn der Wagen auf gesalzter oder sehr verschmutzter Strasse gefahren wird. Wichtig ist es, dass gründlich und komplett gewaschen wird. Ein nachlässiges Waschen des Wagens ohne gründliche Reinigung kann schlimme Folgen an der Oberfläche haben.

Der Wagen soll mit geeigneten Mitteln gewaschen werden. Zur Reinigung der lackierten Flächen und des Unterbodens auf keinen Fall **HEISSES WASSER ODER DAMPF VERWENDEN**. Wir empfehlen, den Schmutz mit lauwarmen Wasser abzuwaschen, danach mit einem reinen Schwamm und **NEUTRALER SEIFE** reinigen. Nochmals mit lauwarmem Wasser spülen und sorgfältig abtrocknen.

4) Teile, die durch Steine, Risse oder beim Parken beschädigt wurden, müssen sogleich durch einen Karosserie-Fachbetrieb repariert werden.

5) Sie sollten den Wagen nicht für eine lange Zeit in einer feuchten Garage oder in einem geschlossenen Raum abstellen.
